

Community Member Program

Connect > Share > Grow

What is it?

iCIMS Community Member Program is a multi-tiered program that enables our customers to grow their careers through exclusive opportunities to network, learn, and build skills.

Think of it like your very own GPS to success.

Each level maps out a clear path to help you connect with fellow talent pros and sharpen your talent skillset. As you move through the membership levels, you have the opportunity to share your story, give product feedback, earn rewards, and best of all – have fun.

How does it work?

The iCIMS Community Member Program is broken into four different tiers. As you rise to each new level, you earn reward points and get access to exclusive perks.

Community Member Program

Connect > Share > Grow
